
Region	Temperature (Mean)	Annual Precipitation (Mean)	Humidity
Andina (Andean)	Varies by altitude: 10 - 23°	Highly diverse (e.g., Bogotá ~2,000 mm; high peaks much less; some valleys ~3,700mm)	Variable by altitude and season
Caribe (Caribbean)	~30°C (up to 40°C in La Guajira desert)	500 mm (drier north) to 2,000 mm (more humid south)	High (~80%)
Pacífica (Pacific)	~28°C	8,000 to over 13,000 mm (one of the wettest places on Earth)	Very high, often near 100%
Orinoco (Eastern Plains)	24-28°C	500 to 1,750 mm	Generally high, with a distinct dry season
Amazonía (Amazon)	~28°C	500 to 1,500 mm (high rainfall)	High (humid and tropical)
